

Mark your calendars!

October 20, 2009

4:30 pm

Tomahawk Creek Middle School,
Chesterfield

Examples of ways to get involved:

If you:	Then you:
have a few hours in October...	can volunteer as an organizer of conference logistics.
live close to Tomahawk Creek Middle School...	could help organize set up/take down of the conference.
have a great activity for kids involving water bottles and scientific notation...	might submit a session proposal* to share your great idea with other teachers.
get out of school before 3:15...	may want to come to the conference early and assist with set-up.
are a mathematics teacher...	should mark your calendar, line up a sitter, and come to the fall conference 😊

* Speaker registration form coming soon. Start thinking about a green activity you can share with your peers. (Sessions are not required to be green-themed.)
